CUSTOMER

Mercedes Benz de Brazil, S.A.

LOCATION

Sao Paulo, Brazil

PRODUCT

Cortec® VpCI®-126

PROBLEM

Mercedes Benz needed better corrosion protection for packaging a variety of truck parts. Some parts would be used for assembly, while others would be shipped as spare parts. Truck pieces were previously packed with a competitor's film.

REASON CORTEC SELECTED

Mercedes chose Cortec® products to wrap their truck pieces because of Cortec's advanced technology. Mercedes now wraps their truck pieces with Cortec® VpCI®-126 for corrosion protection.
